

How to Safely Navigate a Roundabout

What you need to know!

WHAT IS A ROUNDABOUT?

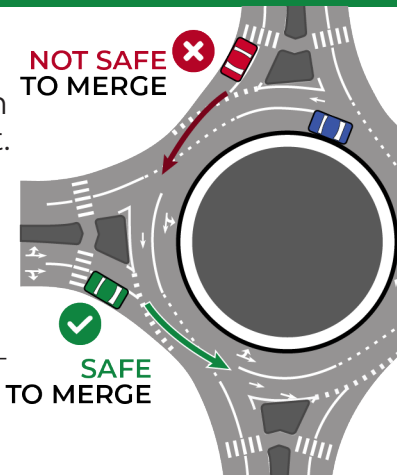

A roundabout is a circular intersection that has no traffic signal. Vehicles flow around a center island and must not stop.

HERE'S WHAT YOU NEED TO KNOW

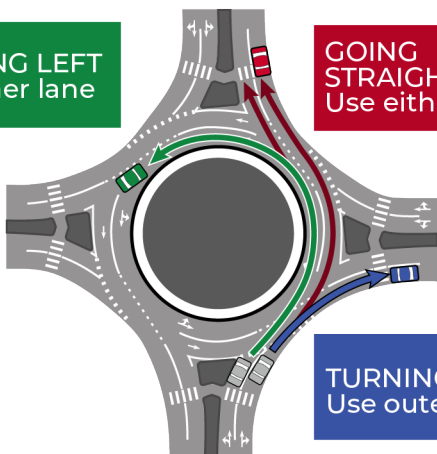

SAFETY TIPS

1. Yield to traffic in the roundabout.
2. Enter when there is a safe gap in traffic.
3. Once in the roundabout, do not change lanes or stop.

TURNING LEFT
Use inner lane

GOING STRAIGHT
Use either lane

TURNING RIGHT
Use outer lane
